Cleaning

▪ Cellular, Roller, Solar and Roman Shades are easy to keep looking fresh and new for years. Regular dusting with a feather duster is recommended. When necessary, fabric can be lightly vacuumed with a brush attachment.

▪ If the Cellular Shade becomes soiled with topical dirt (i.e. dirt that is resting on the surface of the fabric), we recommend that the shade be spot cleaned using a soft cloth or sponge, a mild detergent and warm water. Do not use strong detergents or spot removers. Allow the shade to dry completely before raising.

▪ Extra care should be used when cleaning Cellular Midnight fabric as the fabric could become permanently creased.

▪ Due to differences in ultrasonic cleaning operators, we cannot recommend this method of cleaning. ▪

Dry cleaning is not recommended and will void the warranty.

Roller Shade with scallop ▪

When you receive your shade, there may be a slight curl to the scallop. Fully lower the shade and allow to hang for 24 to 36 hours. This should remove the curl from the scallop. Roller Shade fabric

▪ After installing your shade, you may notice light creases in fabric. Fully lower the shade and allow to hang for 24 to 36 hours. If creases are still noticeable, gently steam the materials using a fabric steamer. Allow the shade to

dry completely before raising.
